### **EDUCATION**

**Manhattan College, Bronx, NY**  
**BA in Computer Science, Cum Laude Honors**  
**GPA: 3.49**

**2005 – Dec 2008**

### **SKILLS**

Swift, Objective-C, iOS, Mac OS, Xcode, CocoaPods, Git, JIRA, Fastlane, Bash, YAML, Unix/Linux, Interface Builder, Storyboards.

### **EXPERIENCE**

**Percolate – Senior iOS Engineer**

**Aug 2013 – Present**

Handle the development of iPhone applications for distribution in the iTunes App Store.  
Develop new features for our suite of apps.  
Build new apps from the ground up.  
Add unit tests to our workspace.  
Convert single app from Objective-C to Swift while continuing to add features.  
Manage our CocoaPods dependencies.  
Organize, estimate and distribute JIRA tasks.  
Optimize our Xcode workspace setup.  
Maintain CircleCI scripts for testing and building iOS apps.  
Maintain scripts for generating coverage files to send to CodeCov.  
Combine suite of apps into a single app.  
Provisioning profile & certificate management.

**Fueled – Senior iOS Engineer**

**Nov 2012 – Aug 2013**

Handle the development of iPhone and iPad applications for distribution in the iTunes App Store.  
Assist in the distribution of labor for user stories in Pivotal Tracker and JIRA.  
Prepared assets for application development by slicing them from PSD's.  
Assist in the supervision of three iOS developers in the production of the Picture Equality app.

**Resolute Digital – iOS Developer**

**Oct 2010 – Nov 2012**

Handle the development of iPhone and iPad applications for distribution in the iTunes App Store.  
Prepared assets for application development by slicing them from PSD's.  
Prioritize and manage app builds and workflows.  
Maintained Resolute Digital's reputation as mobile experts by providing recommendations and insight in regards to application design and user experience to clientele.  
Updated workflow status by alerting project managers and clients of missing assets.  
Created custom apps for clients such as Meredith, the Leukemia and Lymphoma Society, Goodyear, and more.

**Lighthouse Financial - Consultant**

**Dec 2009 – Oct 2010**

Assisted in the development of the company website.  
Helped develop the front end of pre-trade analysis.

**iPhone/iPad Programming**

**March 2009 – Present**

Developing iPhone/iPod and iPad applications for distribution in the iTunes App Store.  
Examples: Numbers - Adding Game, Cubiks - Cube Puzzle

**Manhattan College, Bronx, NY**  
**Two-Junction Polymer Analysis Research**

**Summer 2008**

Improved upon C code pertaining to single junction polymer analysis as well as built upon and manipulated that code in order to be able to perform analysis on two-junction polymers on two-dimensional as well as three-dimensional planes.

**AWARDS**

Manhattan College, 2009  
The Brother John McNamara Medal for Computer Science
